

28 May 1965

MEMORANDUM FOR: Deputy Director for Support

SUBJECT:

25X1

The Director said that had called him today to ask if he had any interest in subject who has been the Deputy in the Federal Aviation Agency and who must leave that job because a military man is taking over as Administrator. According to the Director, FAA has the same problem on the two top jobs that the Agency has. I have already indicated to the Director that we do not need a top-flight communicator, but I thought it might be worthwhile to look into this officer's background to see if he had any other utility for the Agency.

25X1
